Ah ok. I know what you are talking about. We actually kept that language in and added that part about looking at the ERD for those comments and EPA's response. Also, we added a similar paragraph about the SAB review:

**Do you want me to help you pull the names of the peer reviewers?** I feel like that is something small I can do to help you out with. See ammonia document attached for the full word version (page 7).

Can you show me where and what the text looks like? Is it something like below?

Hi Dahnish, I plan to send around the polished Samantha vetted tox review and supplemental info later on today, barring any disasters with updating the HERO links.

One thing.

Yes. Thank you for bugging him. He sent his suggestions on the preface this morning and I have added them to the assessment. I think the preface is good to go.

I am currently communicating with Samantha and Karen about some other specific comments/revisions. Progress is being made.

Hi Kathleen - thanks for continuing the back and forth with me. We left the BaP paragraph on Vince's desk to review and we reminded him first thing and that worked well. Anyways, did you get all the information and clarification you needed to proceed with the preface?

You're welcome. Sometimes I like to challenge myself to see how much I can cut without losing the message. You write well, so this shorter version will be a better fit for your assessment.

Thank you, Kathleen. The paragraph adapted from Ammonia looks good. I like the statements in the whole-hog paragraph but thought we should trim some of the fat before serving. See what you think of the attached paragraph ... Thanks!—Vince

Hi Vince, do you have thoughts on whether the highlighted text below (adapted from Ammonia) is adequate to add to the BaP preface-or were you looking for something different?

**Subject:** BaP-Preface language-noting preamble differences

Hi all, my thoughts are below regarding the action item: - Preface Language discussing systematic review and how it differs from preamble.

- **Kathleen:** Needs to check language in preface to ensure that there is sufficient detail to describe the methods used in the evaluation of BaP; double check preamble sentence.

I have confirmed that the preamble has the lines stating:

**Ex. 5 Deliberative Process (DP)**

## **Ex. 5 Deliberative Process (DP)**

The existing draft does not have any language currently in the preface which describes how the methods in the BaP assessment differs from those specified in the preamble.

***Update: Adding meeting notes and action items.***

Hi all – We are all trying to get on the same page regarding what needs to get done before we can send BaP to Bob hopefully by the end of the week. Below is a list of outstanding issues that we need to touch base on. I've scheduled a short call to discuss with Kathleen and company.

Sorry for the unusual time. Lots of activities are occurring tomorrow and to accommodate the time difference for Kathleen noon EST appeared to work best for everyone involved.

Thanks!

Dahnish

## **Outstanding Issues/Agenda & Action Items**

- Clearance
- BaP Factsheet
- Status of the ERC Check-In (Remaining Comments & Issues)
- Characterizing the 2016 BaP Lit Search/Stopping Rules

- **Vicki/Dahnish:** Issue can wait and is not immediate for IOAA review. Needs to be addressed prior to finalization. Schedule a future meeting.
- NRC Appendix Language (Remove it – remove references to appendix)
  - **Kathleen:** Remove Appendix with NRC language.
  - **Kathleen:** Remove references to the appendix in the Tox Review.
- Form related to BaP and not resending the draft for a second period (Cheryl Itkin; what does she do with it?)
  - **Kathleen:** Need to fill out form and include in STICS clearance prior to IOAA review.
  - **Vicki/Dahnish:** Talk with Cheryl and ask what she does with this form and where it goes.
- Preface Language discussing systematic review and how it differs from preamble.
  - **Kathleen:** Needs to check language in preface to ensure that there is sufficient detail to describe the methods used in the evaluation of BaP; double check preamble sentence.
- Check schedule
  - **Dahnish:** Revise schedule.
